Notes:

We purchased Z631 to use on heifers and just finished calving his first group of calves; they averaged 77 lbs. (some of those were out of a group of older cows that pulled the weights up). We did not have to assist any of his calves. Z631 was the second highest selling 9405 son in 2013 after Dynasty. However, this brother to Dynasty is a higher percentage bull, so he is a good option. He will see very heavy use in our herd this year. **HIS CALVES ARE THICK!**
