THE AMERICAN BLACK HEREFORD ASSOCIATION

2019 Southwest Breeders Sale

Saturday, MARCH 30, 2019 ◆ 1PM CST

Star G Ranch Sale Facility ◆ BEN WHEELER, TX

◆ SELLING 81 LOTS OF SUPERIOR BLACK HEREFORD CATTLE ◆

I would like to take this opportunity on behalf on the American Black Hereford Association to extend our invitation to you to be with us on March 30th for the first ABHA sanctioned Southwest Breeders sale.

The American Black Hereford Association has experienced tremendous growth and acceptance in the cattle industry over the past few years. The improved genetics and quality of the cattle in the breed is making a statement in our industry about the breed. Commercial cattlemen are experiencing and benefiting from the hybrid vigor and heterosis that they are witnessing in their calves from using Black Hereford bulls and females in their program. Docility, ADG, feed efficiency and the ability to produce those highly desired Black Baldee calves are just a few reasons that the breed is one of the fastest growing breeds of cattle in the world.

This sales event will provide you an opportunity to become a part of this growing and exciting breed of cattle. We have consignors that are participating in this event from several states in the US. We feel we have assembled a quality and performing group of bulls and females that will be represented in this event. I encourage all of you to join us so that you may witness first hand why everyone is talking about the American Black Hereford Association. I look forward to seeing you there.

Sincerely,

Tim Tarter
ABHA President

Consigned by DL CATTLE COMPANY - HOMOZYGOUS POLLED Here is an exceptional purebred heifer by the X51 bull we purchased from JM Cattle. We lost this bull after his first breeding season so we can't make any more of these X51 heifers. This calf is out of a Triple L cow we purchased several years ago and she has produced exceptional calves for us every year. Our Black Knight herd bull is out of this heifer's mother. Her EPDs' and performance back up everything we can say about this calf.
