

# ABHA Genetic Testing

All Genetic Testing orders are placed in DigitalBeef

## Certified Herd Sire Test

In January of 2017 Rule 2.11 was adopted by the Board of Directors regarding genetic testing of male animals.

“The ABHA will require all ABHA Black Hereford sires born after Jan. 1, 2017, to have parentage on file with an approved testing service and be tested genetically free of the following genetic defects Arthrogyposis Multiplex (AM), Neuropathic Hydrocephalus (NH), Idiopathic Epilepsy (IE), and Developmental Duplication (DD) before their progeny can be registered.”

Select “Certified Herd Sire” to order the Certified Herd Sire test. This is the official test that will be recognized by the Association for the Certified Herd Sire rule. The test includes the base 50k Genetic Test, Parentage, AM, DD, NH, IE. -\$70

Genetic tests ordered thur the ABHA are not charged notation fees. Notations on any other test are still billed the set notation fee.

The following test can be added at a discounted rate to the 50k:

- Coat Color- \$6.50
- Horned/Polled-\$14
- BVD- \$4.50
- Igenity Gold Report Upgrade- \$6

## Hair Samples
