

Black Dynasty Z420ET

One of the most heavily used bulls in the ABHA for both registered and commercial breeding. He has some of the highest accuracy EPDs in the breed. He is proven and unmatched for his correct phenotype and his female making ability.

He is low birth weight and is known for producing feminine looking females that have tight udders and beautiful teats.

Use him where you need style and to improve your maternal traits. He excels on Red Hereford females and is an excellent choice to use on commercial females. His semen quality is excellent.

72% Homozygous Black Reg. HB003405
