

Triple T's Solomon

In his very first calf crop Solomon has lived up to our expectations. His calves are some of the best calves that we have ever had born on our farms. Customers are raving about the muscle and thickness of his calves, but more than that, the style that they are reflecting. He is clean in the front and is clean sheath. He is heifer specialist with a BW EPD that ranks in the top 10% of the breed.

His legacy had just begun, and he is the right kind to build a herd with. We are excited about the future of this great young bull. His semen quality is excellent and in high demand based on all the traits he has to offer. He is going to be one of the great ones. He will make an exceptional choice for moderate frame females and will work great for commercial breeders.

86 % Homozygous Polled HB011371
Approved Herd sire Test
Free for all known genetic defects including MSUD
